

2023 Crash Course

HunterPrep hosts a yearly crash course for Hunter exam preparation. Your student will gain a fundamental understanding of all Hunter exam topics and learn essential test-taking strategies.

Who are the instructors?

Our **head instructor** is Lila Schisgal, a distinguished graduate of Hunter and current undergraduate at Macalester. Lila has led HunterPrep's Group and Crash courses for the past three years and has had a stellar track record as a private tutor for HunterPrep.

Vishu Chandrasekhar will be teaching our final review on Dec 29. She is a distinguished graduate of Hunter who was awarded the Woolcock award during Hunter's graduation ceremony, an honor given to one Hunter student yearly. She is a current undergraduate at the Case Western BS/MD medical program, one of the nation's most competitive combined undergrad/medical programs. Like Lila, she has had a stellar track record of success at HunterPrep.

Our **essay evaluators** are a group of Hunter alumni who are well-seasoned writers. Many of our essay graders have been recognized with Scholastic Writing Awards for their expositions. They are current students at UPenn, Cornell, BC, Macalester, and other top liberal arts colleges.
